

PREMIERE 2025

PROLICHT begins 2025 with exciting innovations to the SLIDER product family and a new insert for the MINIMAL TRACK system. These additions reflect the company's commitment to providing cutting-edge, customisable lighting solutions.

SLIDER RECESSED

Designed for seamless integration, the new SLIDER RECESSED features a sleek, minimalist design and a shallow depth for maximum adaptability. Its plug and play system allows for quick and easy installation, making it an ideal lighting solution for modern, minimalist interior designs.

SLIDER-F DOUBLE

Building on the SLIDER-F range, the SLIDER-F DOUBLE features a T-shaped head that delivers twice the light output while retaining its clean, functional design. This enhanced free-standing luminaire provides optimum illumination for workspaces and communal areas, ensuring a comfortable and productive environment.

SLIDER IP54

The SLIDER SURFACE and SLIDER PENDANT models are now available in an IP54 version. This upgrade combines their sleek aesthetics with increased durability, offering protection against dust, insects and water splashes. These models are ideal for environments where reliable and robust lighting solutions are required.

BILO for MINIMAL TRACK

The compact and powerful BILO luminaire is now available as an insert for the MINIMAL TRACK system. This combination combines the refined design of BILO with the flexibility and elegance of the ultra-slim MINIMAL TRACK system, providing a sophisticated and modern lighting solution.
